INTRODUCTION

The »German Shippers Register« has been published since 1973 and has a circulation of 3 000 copies to shipowners, shipbrokers, shipyards, shippers and other companies allied to the shipping industry. The 51th edition of this Register covers the whole of Germany, giving detailed information on 121 competent and bona fide German shippers in 29 cities. The listed member companies supply to ships – either a general or a specialized range of products, as indicated. They are all highly experienced in the trade and have been screened before being accepted as members of the German Shippers Association.

This booklet gives shipowners and ship's officers details of a wide range of qualified shipstore merchants in Germany. It may assist them in appointing their suppliers to the fleet.

We feel sure that the »German Shippers Register« will be of great assistance to you in your work and will gladly send you further copies free of charge on request.

We also wish to thank all advertisers for their loyalty and are convinced that this Register is an excellent means for them to advertise their products and services to the shipping industry worldwide.

Please contact your local shipsupplier for the products advertised in the Register.

Gebr. Heinemann

Gegründet 1879

Modern by tradition: ship chandler since 1879

Passion for travel. Passion for trade. Passion for brands.

That is in Gebr. Heinemann's genes. 143 years ago, the family company started as a supplier of tax and duty free commodities for ships. Today, it is a major distributor and retailer for the global travel market. Yet it sticks to its roots, supplying cruise ships and onboard shops with a vast portfolio of high quality consumer goods. Big brands, small prices – the perfect combination at sea.
